

Aluminium warning sphere dia. 600mm

The obsta spherical markers are compliant with International Civil Aviation Organisation (ICAO) annex 14 chapter 6 recommendations:

Paragraph 6.2.5.4: A marker displayed on an overhead wire, cable, etc., should be spherical and have a diameter of not less than 60 cm

Paragraph 6.2.5.5: The spacing between two consecutive markers or between a marker and a supporting tower should be appropriate to the diameter of the marker, but in no case should the spacing exceed 30 meters when the marker diameter is 60 cm. Where multiple wires, cables, etc., are involved, a marker should be located not lower than the level of the highest wire at the point marked

P/N : **113655AL**

Key Points

- overall diameter 600mm
- material: aluminium
- Designed for high voltage cable, tested to temperature up to 250°C peak
- No losing parts and easy installation with only 2 screws and draw latches
- color: white or red aviation to be specified at time order
- clamps depending on the diameter of the cable from 9mm up to 67mm to be specified at time order

Mechanical Characteristics

Weight

6,5kg
