

12V SOLAR KIT 20-25WP

12Vdc solar kit for NAVILITE 12Vdc

P/N : 1003SOL

This solar kit is a compact solar generator. Autonomous and maintenance free, easy to run up, the quality of all its components contribute to make this energy kit the ideal solution for OBSTA lights

Note: - The exact size of our solar panel/battery depends on latitude/longitude. For example, the size of the solar panels needs to be 3 times bigger in the North of Europe than in the South of Europe.

Key Points

Advantages

- our solar panel offers 10 years of electrical characteristic warranty
- the initial capacity of the battery allows 6 days of autonomy offering very limited maintenance cost
- our regulator protects the battery against overcharges and deep discharge
- modular system with easy access for the maintenance of the battery and the regulator
- possibility to fix one or two lights directly on the solar kit
- accessories to attach the solar kit on vertical leg or horizontal leg are included

Mechanical Characteristics

Attachment

2 brackets for vertical or horizontal leg
