

Photocell for day/twilight and twilight/night change of light output in accordance with ICAO to be used with the high intensity type A

- 2 plug-in photocell hard glass and aluminium with plated contact surfaces fixed on a junction box
- automatic control of the obstruction lighting according to ambient light day/twilight/night (ICAO settings: 500 lux and 50 lux)
- timer to prevent the functioning of the cell at inopportune times (lightning)

| Electrical Characteristics | |
|----------------------------|---|
| Main voltage | 48VDC (-10%; +15%) |
| Average wattage | 1.5VA |
| Mechanical Characteristics | |
| IP degree | IP65 in vertical position |
| Operating temperature | -25°C/+60°C |
| Weight | 0.3 kg |
| Attachment | 4 screws type M4 |
| Standards | |
| Standards compliance | ICAO annexe 14 chapter 6 (8th edition 07/2018), EASA (4th edition 2017) |
