

Solar kit for OBSTA OFD-RW-048 medium intensity type A & B at the top with 2 low intensity type B at mid level operating at night only (to be ordered separately)

Advantages

- GEL technology for the battery
- Initial capacity of the battery with 6 days of autonomy offering limited maintenance cost
- Protection of the battery against overcharges and deep discharge
- modular system with easy access for the maintenance
- accessories to attach the solar kit on vertical leg or horizontal leg included

Note: - The exact size of our solar panel/battery depends on latitude/longitude. For example, the size of the solar panels and battery needs to be 3 times bigger in the North of Europe than in the South of Europe.

48VDC OBSTA dual color medium intensity and vertical tube to be ordered separately
