

**Junction and monitoring box**

- cable inputs by gland nickel plated brass
- 8 terminal connections for 8 medium intensity lights and/or low intensity lights
- 1 visual indicator and on alarm relay per light
- surge protection
- connection of optional photocell
- on/off switch and remote/manual switch to bypass the photocell

Option **to be used with red medium intensity 48Vdc**

**Caractéristiques Électriques**

Mains voltage	48VDC -10%/+15% (max current 14A)
---------------	-----------------------------------

**Caractéristiques Mécaniques**

IP degree	IP65 in vertical position
Size of the power supply	315mm (height) x 210mm (width) x 110mm (dept)
Weight	4kg
Cable entry diameter	from 8 to 15 mm
Wire cross section	from 1 to 4 mm <sup>2</sup>
Attachment	4 screws type M5
